With the help of Project GO we have now paid over \$31,000 in back utility bills. That includes 15

accounts with an average of \$2,000 per account.

We are working with an organization to add EV chargers to Commercial Street. They will be the first public EV chargers in Plumas County. We are just finishing up the details on how many EV chargers will be put in.

Snow season is already close and this year we will be more strict on vehicles parking on the street during snow plowing. We want to be sure the roads are clear so that the snow plows can effectively plow the streets.
